

# H.A.

Software Engineer · M.Sc. Applied Computer Science

Deggendorf, Germany  
github.com/schatten007  
schatten007.github.io

Software engineer with experience co-founding a consultancy, leading a three-person team, and delivering mobile and web applications for international clients. Currently pursuing an M.Sc. in Applied Computer Science and building public projects in AI automation, developer tooling, and data systems.

## EXPERIENCE

**Co-Founder & Software Engineer** Oct 2023 – Jan 2025

Eule · Software consultancy

Co-founded a consultancy and led a team of three delivering full-stack web solutions for international clients. Owned the path from requirements and development to deployment and maintenance.

**Freelance Software Developer** Aug 2022 – Oct 2023

Fiverr / Upwork

Delivered custom mobile and web applications for international clients, specializing in Flutter and Firebase. That work became the foundation for Eule.

## SELECTED PROJECTS

### CV Tailor ↗

Python · OpenCode · AI workflows · Playwright

An evidence-led AI toolkit that turns a job description and real career history into a focused application. Every claim has to come from somewhere.

### SchemaSentinel ↗

TypeScript · MCP · JSON Schema · CLI

A focused CLI that spots documented MCP schema-conversion defects, explains the failure, and refuses to call an unsupported input a pass.

### EU Tech Labour Observatory ↗

Python · DuckDB · dbt · React

A reproducible pipeline and dashboard for public tech-job demand. Source scopes stay separate, missing data stays visible, and every ranking keeps its denominator.

## EDUCATION

**M.Sc. Applied Computer Science** Oct 2025 – present

Deggendorf Institute of Technology

Deggendorf, Germany

**B.S. Software Engineering** Sep 2018 – Sep 2022

COMSATS University Islamabad, Abbottabad

3.78 / 4.0 · Campus Gold Medal · Institutional Silver Medal

## TECHNICAL SKILLS

**AI & automation** Python · OpenCode · MCP · LangChain · Transformers · Hugging Face

**Software & data** TypeScript · JavaScript · React · Flutter · Firebase · DuckDB · dbt

**Systems & foundations** C++ · CUDA · Java · Bash · Docker · Git

## SELECTED LEARNING & LANGUAGES

**DataCamp:** Associate AI Engineer for Developers, 29-hour track (Aug 2026).

**NVIDIA:** CUDA Python, Transformer-based NLP, Deep Learning, and Diffusion Models – Certificates of Competency (Mar 2026).

**Languages:** English C1 · German A2.
