

H. A.

Software Engineer · M.Sc. Applied Computer Science

Deggendorf, Germany
github.com/schatten007
schatten007.github.io

Software engineer with experience co-founding a consultancy, leading a three-person team, and delivering mobile and web applications for international clients. Currently pursuing an M.Sc. in Applied Computer Science and building public projects in AI automation, developer tooling, and data systems.

Experience

Co-Founder & Software Engineer Oct 2023 – Jan 2025

Eule · Software consultancy
Co-founded a consultancy and led a team of three delivering full-stack web solutions for international clients. Owned the path from requirements and development to deployment and maintenance.

Freelance Software Developer Aug 2022 – Oct 2023

Fiverr / Upwork
Delivered custom mobile and web applications for international clients, specializing in Flutter and Firebase. That work became the foundation for Eule.

Selected projects

CV Tailor ↗
Six OpenCode skills for CVs, company research, and application prep, with source facts carried through the workflow.

SchemaSentinel ↗
A small CLI that reads a saved tools/list file and flags two documented n8n-to-MCP schema bugs. It says where it broke and what to do about it.

EU Tech Labour Observatory ↗
A collection pipeline and dashboard for Swedish and German tech-job postings. The two source scopes are kept separate.

Education

M.Sc. Applied Computer Science Oct 2025 – present
